

Corrosive Ant Queen

aka Rotten Vermin

General

A queen of the species of giant corrosive ants native to Jugo. Only one exists in Drangleic; its presence in The Gutter seems to suggest that it began its life in the laboratory of Lord Aldia's mansion and eventually outlived its usefulness.

Bonfire Intensity	HP	Souls
1	3,000	300
2	?	600
8	10,600	1,200

- The white mist this monster expels cures poison, but slowly degrades the durability of armor.
- This enemy will not attack.
- Spawns once per playthrough.

Location

The Gutter

Near the Central Gutter bonfire and the fog gate.

Drops

- Poison Moss
