- Black Dragon Set

Location

Dragon Shrine

He invades as you enter the building containing the Petrified Egg.

Drops

- Dragon Scale (rare)
- Awestone (if you're a member of the Company of Champions covenant)

Strategies

- He will stay at the top of the staircase until you move in, giving you plenty of time to prepare for the fight.
- Villard's attacks are quick. Be sure to either equip a shield with good stability or prepare to dodge a lot. He will also attempt to guard break you frequently, so watch out.
- If you plan to take him on in armed combat, wait until he attacks three times in a row, usually depleting all his stamina. This will give you an opening to stunlock him with your own attacks.

Notes

- Using a Bonfire Ascetic on the Shrine Entrance bonfire in Dragon Shrine will respawn him.
