## Description

---

A Red Phantom in Shulva, Sanctum City.

## Equipment

---

- Winged Spear
- Stone Parma
- Steel Set

## Location

---

### **Shulva, Sanctum City**

On the bridge right before the Priestess' Chamber bonfire.

## Drops

---

- Awestone (if you're a member of the Company of Champions covenant)

## Strategies

---

- Prepare to roll behind him when he throws the Talisman and backstab him with a hard hitting weapon. Run around and try to roll and punish his jumping attacks and Lloyd spamming.
- Use the room before the bridge to ambush him as he comes by.
- Hide behind walls to heal, otherwise he will throw Lloyd's Talismans at you.
- The chest in the room up the third ladder before the bridge can be used to block his attacks while casting spells.
- You can run past him and light the bonfire.
- If you run past him and light the bonfire, you can also use the elevator hole behind him to keep him at range.

## Notes

---

- He throws Lloyd's Talisman when the player is mid-range.
- Using a Bonfire Ascetic on the Tower of Prayer bonfire in Shulva, Sanctum City will respawn him.

- For some reason, he cannot be thrown into the elevator hole in the middle of the bonfire room.
