

Corrosive Urn

In-Game Description

*Urn filled with secretions of giant corrosive ants.
Powerful acid inflicts damage on equipment.
Giant anthills created by the corrosive ants
line the horizon of the desert land of Jugo.
Ant larvae are considered a delicacy,
but he who enters an anthill uninvited
will have their flesh melted to the bone.*

Use

Explodes upon impact and damages equipment durability. Deals 10 durability damage to weapons/shields and 2 to armor/rings.
