

Dragon Torso Stone

In-Game Description

*A stone containing the strength of dragons.
Transforms the body into a roaring dragon,
an effect that will remain until death.*

*The zealots who sought everlasting life are said
to have conducted rites to imbue stones with the
strength of dragons, but the truth of such claims
is questionable.*

Use

- Equips the Black Dragon Helm, Black Dragon Armor, Black Dragon Gauntlets and Black Dragon Leggings. This armor set cannot be unequipped and lasts until death.
- After transforming, using the Dragon Torso Stone from your quick access bar will make you roar. This causes enemies to stagger similar to Force.
- The roar costs approximately 100 stamina and gives you a five second boost to stamina recovery.
- Infinite uses.
- Unlike in the original Dark Souls, this torso stone can be used to equip the Black Dragon Set even when already wearing armor.

Availability

Reward for reaching Rank 2 in the Dragon Remnants covenant.
