

Throwing Knife

In-Game Description

Throwing Knife.

Used as a projectile.

This simple weapon does not require much in the way of practice to use. However, it does not deal much in the way of damage either.

Regardless, it is still a valuable tool to have by one's side in the absence of other ranged attack options.

Use

A projectile weapon. When thrown, it flies in the direction the player is facing and inflicts damage. Scales with dexterity (Needs confirmation)(Confirmed, scales with Dexterity, may also scale with Strength. Note, the damage increase is not by large amounts) Additional testing required.

Availability
