

Gestures

Used to communicate with other players. The gesture menu is accessed with the Select / Back button.

Motion sensing is enabled for the Playstation 3's SIXAXIS controller. In theory, when the player presses and holds the X button down the game will recognize the pattern of movement and perform the assigned gesture.

Image	Gesture	Description	How to obtain
	Point	Player points forward	Available at start
	I Won't Bite	Player gestures to come nearer	Available at start
	Bow	Player performs a bow	Available at start
