# Notes

---

- A tanky phantom who can either escort you to the fog door or help you through the boss fight itself. His limited shade timer means it usually has to be one or the other.
- Like Bradley, he is strong enough to survive just about anything.
- Excellent dodging abilities, but his low poise means multiple opponents can eventually stunlock him to death.
- His power-stanced daggers and claws are pretty even in terms of damage.
- Uses his pyromancy sparingly even against bosses.
- Whenever there is no fights nearby, he uses his Binoculars.
