Notes

- Essentially a better Drangleic Shield. More weight but better all around. Also doesn't require Twinkling Titanite to upgrade.

- Has similar stats to the Old Knight's Shield. The differences being more damage, better strength scaling, higher durability, lower stability, lower weight, and a lower strength requirement. In short, if you can afford the higher STR requirement, the Old Knight's Shield is a slightly better shield to use overall.
 - Another major difference is the Drakekeeper's Shield doesn't gain as much damage reduction from being infused compared to the Old Knight's Shield, most notably when infused with Dark.
