

Casting Speed

Description

Speed at which spells can be cast.

Can be shortened with attunement.¹

Influence of Attributes on Casting Speed

- Casting speed is influenced by Attunement, Faith and Intelligence
- Attunement has two times bigger influence on Casting Speed than Faith and Intelligence
- Casting Speed rises by 2 until it is 115. Casting speed will increase for every 2 points in Attunement, or 4 points in Faith or Intelligence.
 - E.g. $2ATN = 1ATN + 2FTH = 1ATN + 2INT = 1ATN + 1FTH + 1INT = 2INT + 2FTH = 1FTH + 3INT = 3FTH + 1INT$
- Between 115 and 126 Casting Speed rises by 1 for same amount as above.
- From 126 it needs two times more than above to rise by 1. e.g. $4ATN = 8INT = 8FTH = 4INT + 4FTH$
- Max Casting Speed is 323 with 99 ATN/INT/FTH, Clear Bluestone Ring +2, Black Hood and the Lion Mage set

Equipment which increase Casting Speed

Item	Increase	Other Effects
Black Hood	11%	FTH +2, INT +2
Chaos Hood	5%	INT +3
Lion Mage Robe	5%	
Lion Mage Cuffs	5%	
Lion Mage Skirt	5%	
Clear Bluestone Ring	20/35/40%	

Note: the effect of these items stacks.
