

Dark Attack Bonus

Abbreviated as **Dark BNS** in-game.

Description

*Boosts the power of dark attacks.*¹

Use

Determines how much extra damage you do with dark scaling weapons and hexes.

Notes

- The base Dark BNS, with 0 INT and 0 FTH is 50.
- Scales with the lowest of Intelligence and Faith.
- For example, having 10 INT + 20 FTH and having 55 INT + 10 FTH both result in 72 Dark Bonus.
- 30 as the lowest of Faith and Intelligence is the soft cap.
- This value is multiplied by the weapon or spell tool's dark scaling factor, then added to the attack rating along with any other scaling.

Exact Values

Lowest of INT/FTH	Dark Attack Bonus	Lowest of INT/FTH	Dark Attack Bonus
1	50	51	177
2	54	52	178
