

Fire Attack Bonus

Abbreviated as **Fire BNS** in-game.

Description

*Boosts the power of fire attacks.*¹

Use

Determines how much extra damage you do with fire scaling weapons and pyromancies.

Notes

- The base Fire BNS, with 0 INT and 0 FTH is 50.
- Increases once with any 2 points in Intelligence and Faith, so either 1 INT + 1 FTH or 2 INT or 2 FTH. This effectively means it scales with the total or average.
- For example, 5 INT + 55 FTH, 30 INT + 30 FTH, and 55 INT + 5 FTH all result in 147 Fire Bonus.
- 60 combined Intelligence and Faith is the soft cap.
- This value is multiplied by the weapon or spell tool's fire scaling factor, then added to the attack rating along with any other scaling.

Exact Values

(INT+FTH)/2	Fire Attack Bonus	(INT+FTH)/2	Fire Attack Bonus
1	50	51	162
2	54	52	163
3	56	53	164
4	59	54	165
