

Physical Atk Strength

In-Game Description

The power to inflict damage with physical attacks. Improves with strength.

Use

Determines how much extra damage you do with weapons that scale with Strength.

Notes

- Diminishing returns begin after 40 and become worse after 50
- This value is multiplied by the weapon's Strength scaling factor, then added to the attack rating along with any other scaling.
 - See this spreadsheet for these scaling factors for each weapon.
