

Strength

In-Game Description

Attribute required to wield heavy, powerful weapons. Also boosts attack.

Use

- Many pieces of equipment have a Strength level requirement. Two-handing a weapon or shield halves the Strength level required to use it.
- Increases Physical ATK: Strength, which modifies damage on weapons with Strength scaling.
 - See this spreadsheet for how ATK bonuses are converted to damage for each weapon's scaling.
- One of 4 stats that increase Physical DEF.
- Slightly raises HP.

Strength Requirements

Equipments listed here are only the ones that needs more than 3 points of Strength, because the lowest Strength you can get is 3 (by choosing Sorcerer as a starting class). Remember that this list is only the Strength requirement for one-handing an equipment, so you can also two-hand it to wield with lower Strength.

Bows and Greatbows are always used in two hands, and so they have been listed with half the Strength requirement.

Weapons

Strength	Equipment with Strength Requirement
4	Parrying Dagger, Shadow Dagger, Bell Keeper Bow
